

Try the new high-speed, cost-effective [Veo 3.1 Lite](#)
([/web/20260412172730/https://ai.google.dev/gemini-api/docs/models/veo-3.1-lite-generate-preview](#)) model for video generation at scale.

Gemini deprecations

This page lists the known deprecation schedules for [stable \(GA\)](#) ([/web/20260412172730/https://ai.google.dev/gemini-api/docs/models#stable](#)) and [preview](#) ([/web/20260412172730/https://ai.google.dev/gemini-api/docs/models#preview](#)) models in the Gemini API. A "**deprecation**" is the announcement that we no longer provide support for a model, and that it will be "**shut down**" in the near future. Once a model is "**shutdown**", it is completely turned off, and the endpoint is no longer available.

Deprecation announcements are made on the [Release notes](#) ([/web/20260412172730/https://ai.google.dev/gemini-api/docs/changelog](#)) page, and the announced earliest shutdown dates are tracked on this page. Already-shutdown models are indicated with gray backgrounds.

Note: The **shutdown dates listed in the table indicate the earliest possible dates on which a model might be retired**. We will communicate the exact shutdown date to users with advance notice to ensure a smooth transition to a replacement model.

Gemini 3 models

Model	Release date	Shutdown date	Recommended replacement
Preview models			

Model	Release date	Shutdown date	Recommended replacement
gemini-3.1-flash-lite-preview	March 3, 2026	No shutdown date announced	
gemini-3.1-flash-image-preview	February 26, 2026	No shutdown date announced
